SCIENTIFIC PAPERS

13 / Deployment and Trial of 5G Non-Public Networks (NPNs) for media content production in 5G-RECORDS

Cristina Avellan Carrion, Nerea Cilleruelo Méndez, Adrián Rodrigo Castillo, Irene Alepuz, David Gomez-Barquero.

ANNUAL RESEARCH REPORT 2022/2023

25 / APL (Antennas and Propagation Lab)

33 / COMM (Multimedia Communications Group)

37 / GAM (Microwave Applications Group)

43 / GTAC (Audio and Communications Signal Processing Group)

46 / GTS (Signal Processing Group)

50 / MCG (Mobile Communications Group)

63 / PRL (Photonics Research Labs)

THESES SUMMARY

75 / Advanced Techniques for the Characterization and Experimental Validation of Passive Inter-Modulation Effect (PIM) in Space Communications Systems

Author: Davide Smacchia

77 / Smart sound control in acoustic sensor networks: a perceptual perspective

Author: Juan Estreder Campos

79 / The wind orchestra as a means of application and development of current compositive techniques. A performative proposal

Author: José Miguel Fayos Jordán

81 / RNew Wide-Band Capacitive Filter Structures in Rectangular Waveguide Technology With Enhanced Out-of-Band Response

Author: Joaquín Francisco Valencia Sullca

82 / Evaluation of QoE in a DASH-based 3D video adaptive streaming system

Author: Paola Guzmán Castillo

64 / Filter Optimization for Personal Sound Zones Systems

Author: Vicent Molés Cases
